

# Perfect Gift Legal Administrative Advisors (PGLAA)

---

## Description of Immigration Services

**Perfect Gift Legal Administrative Advisors (PGLAA)** is a **Private Banking Facility (PBF)** affiliated legal administrative advisory services organization that provides coordination of **PBF** capabilities to PGO Members that are interested in **legally** immigrating to the United States as a permanent resident using the EB5 immigration application process.

**PGLAA** serves to assist the administrative flow of documentation between PGO'S affiliated Law Firm only in connection with the required *financial information* demanded by the United States federal government for this type of immigration application. PGLAA serves as a liaison between the Law Firm, the EB5 Applicant, and the **PBF** to facilitate the legal transfer and/or repatriation of the EB5 applicant's assets into United States jurisdiction through a legal structure developed by the **PBF**.

Pursuant to the applicant's **PGO** Membership, the **EB5 Applicant** may (potentially) take advantage of the **PBF** to accomplish the necessary financial investment that is a part of the application package. Prospective immigration applicants are encouraged to contact **PGLAA** to explore the many benefits that the **PBF** offers in regards to these federally mandated financial requirements.

The **PBF** is the only vehicle that is able to provide unprecedented and unparalleled safety of capital and earnings against financial and investment risk commonly associated with EB5 applications because of the unique legal and financial structure of the **PBF**.

**The PBF can provide, among many other things, the following:**

- ✓ Indemnification of investment, assets, and earnings against market fluctuation, credit default risk, and other factors
- ✓ Transfer of capital and assets into US jurisdiction onshore (Continental United States)
- ✓ Added maximum protection specifically against illegal government intrusion through a legal structure domiciled and venued in the State of Wyoming
- ✓ Maximum protection against fidelity risk due to theft, malfeasance, misappropriation, and other factors
- ✓ Statutory and Regulatory legal oversight and governance insuring full compliance with US law

The **EB5** process is complicated, and requires the professional expertise of a highly experienced and creative international law firm based strategically in the United States. For this reason, the designated Law Firm has been selected by YAHUWAH to work with the **PBF**. Disclosure of the identity of the Law Firm shall remain confidential pending completion of all contractual arrangements.

The primary need of the PGO Member and immigration applicant is the safety of capital and assets. **PGLAA** operates to ensure a smooth and seamless transfer of all assets with total safety in response to these needs.
