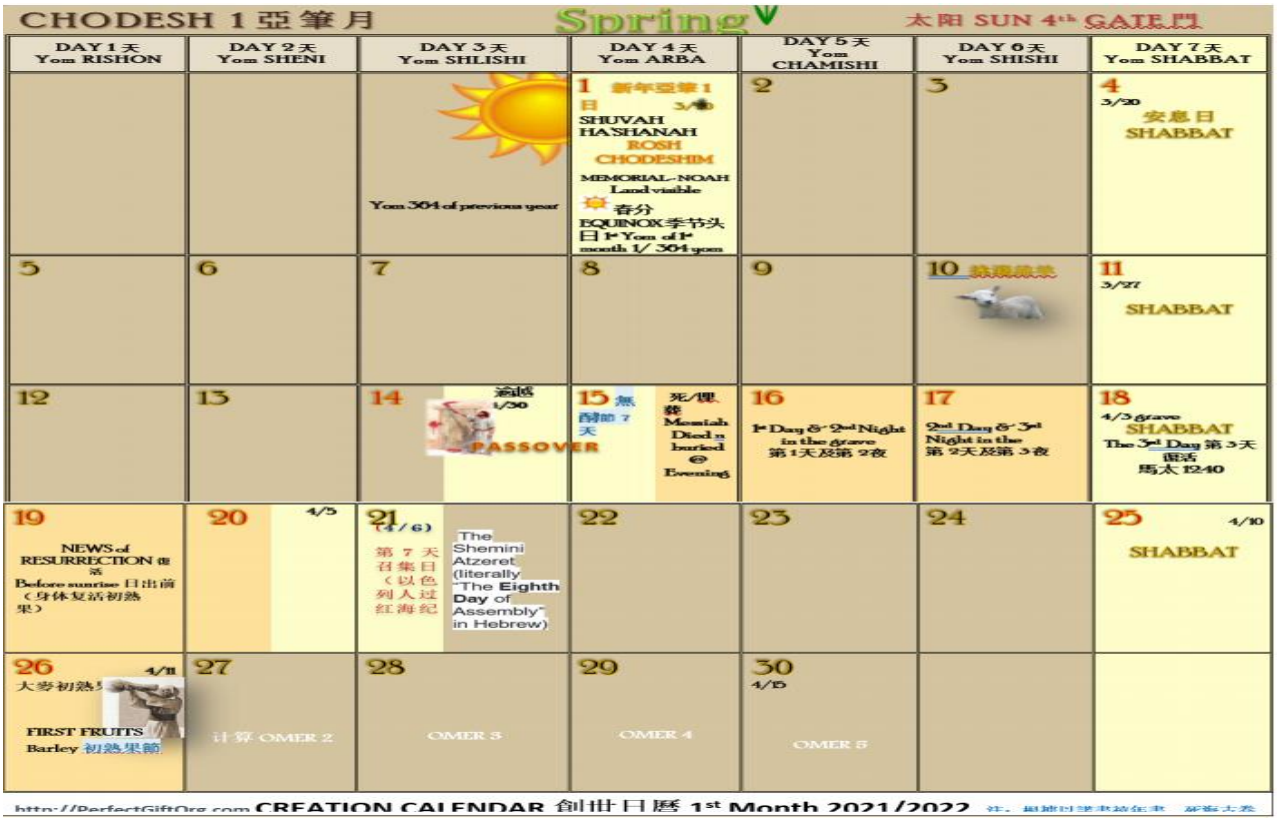
Is 2022 or 2024 a Jubilee year in YHWH Zadokite Calendar

The Sabbath and Jubilee years have been mentioned in the scriptures and are certified from the six-year Priestly Order calendar that has been discovered from the finding of DSS (Dead Sea Scroll). Leviticus 25:1-22

A. **The 1st Sabbath and the 1st day of Spring season in the 1st month of year 2021: Aviv 14 Passover Dinner, Unleavened Festival Aviv 15th, 21st and Aviv 26th the first fruits feast** 2021-YHWH-Priestly-calendar-1st-month.pdf



2021

Coding Key:
Days of the Week = Both by Enoch & Gregorian Calendars (fixed ~ they don't change)
Omer Count Days = By Enoch Calendar (fixed ~ they don't change)
Days of the Month = By Enoch Calendar (fixed ~ they don't change)
Days of the Gregorian Month = These change

MONTH 1 = Aviv

Week #	SUN DAY 1	MON DAY 2	TUE DAY 3	WED DAY 4	THU DAY 5	FRI DAY 6	SAT SABBATH
1				MAR 17 1	MAR 18 2	MAR 19 3	Tzav MAR 20 4
2	MAR 21 5	MAR 22 6	MAR 23 7	MAR 24 8	MAR 25 9	MAR 26 10	Shmini Shabbat HaGadol MAR 27 11
3	MAR 28 12	MAR 29 13 John 11:9 "Yahushua answered, Are there not twelve hours in the day? ..." Died between the evenings	Pesach MAR 30 14 DAY 1	Unl Brd MAR 31 15	Unl Brd APR 1 16 DAY 2	Unl Brd APR 2 17 DAY 3	4th Day of Unl Brd The Shabbat of the Reaurrection of Yahushua APR 3 John 20:17 18
4	Unl Brd John 20:26's 8 1st 19	Unl Brd Days begins, APR 4 Day 2nd 20	Unl Brd APR 5 Day 3rd 21	APR 6 APR 7 4th Day 22	APR 8 5th Day 23	APR 9 6th Day 24	Tazria APR 10 Lev. 23:11 7th 25 Day
5	1st Fruit APR 11 1st Day 8th 26 Day Lev. 23:14	APR 12 2nd Day Yahushua is safe to touch, John 20:26 27	APR 13 3rd Day 28	APR 14 4th Day 29	APR 15 5th Day 30		This priest continues into 2nd month...

Governing General over the month:
"The people bursting forth will return, my endowment/ dowry who is Elohim. - 1 Chron 27:2-3
Priest Order #

#6 1Ch 24:9 Miyamin [from the Right Hand]
#7 1Ch 24:10 Hakkotz [thorn]
#8 1Ch 24:10 Aviyah [YaHuVaH is (my) abba/ father]
#9 1Ch 24:11 Yehoshua [YaHuVaH is Salvation]

1Ch 27:2-3
Over the first course for the first month was Yashov`am ["the people/ nation will return/ restore"] the son of Zavdi'el ["God is my endowment/ a gift:—dowry"]: and in his course were twenty-four thousand. *He was* of the children of Peretz ["breach, bursting forth"], the chief of all the captains [rosh kol sar/ head of all the princes, governors, generals] of the host for the first month.

B. DSS has recorded a 6 years cycle's calendar with the mark of the full moon on the Sabbath of the priestly weekly order: 2021years falls on the 3rd year of the 6 years priestly order cycle

•Legend Key Calendar Colors

•Solar Times & 4 Season Markers Dates-Yellow

•Months-Orange

• Annual Feasts-Moadem-Green

• End of months (for Gregorian calendar only)-Red

•Full & New Moons To Determine the Perpetuity of the 7 day weekly cycle-Gray

•Zadokite Priestly Order-Light Blue.

•New Months-Chodasheem-Brown or Peach

**The Solar times of Yah do not ever use the moon! The 6 year priestly cycle First Chronicles Ch. 24 uses the moon phases of full and crescent to establish when the Zadokite priestly order starts their assigned week. The moon incredibly enough as it appears in the priestly order establishes the eternality of the perpetual 7 day weekly cycle! The new visible crescent and full moon phases are included only to verify and display that the 7 day week has never changed and that these phases occur on the same corresponding days of the week as in Torah times!

B. Dead Sea Scrolls 6-Year 24 Priestly duty on duty Schedule chart

NAME LISTS: from left to right are 1st to 6th years Priestly order on Shabbat weekly duty

The 52 Shabbats yearly : 1 to 52 weeks from top to below

Thee 7 days weekly cycle: day 1 to day 7 from left to right

Extreme Right indicates 12 month yearly: month 1 to month 12 consist of 52 Shabbats from top to the bottom

Notes:

1. This rendition is adopted from *The Complete Dead Sea Scrolls in English* by Geza Vermes (ISBN 0-14-027807-9) pp. 352-356.
2. The lunar cycles realign with the solar calendar after every third year with a full moon occuring on 1 Abib; this is referenced as a "(Heavenly) sign" in 4Q319 (highlighted above).
3. The Heavenly signs repeat after every third Jubilee.
4. The priestly divisions recycle with the Heavenly signs after every sixth year; see QumranCalendar.pdf for details on the priestly divisions.
5. No lunar cycle intercalation is required. Each solar year consists of 364 days whereas the lunar cycle comprised of 354 days is ten (10) days deficient of the solar year. After three solar years, the lunar cycle is exactly thirty (30) days deficient (i.e., one solar month) and the two realign.
6. The highlighted Heavenly signs by Jubilee -- that is, the years in which a full moon occurs on 1 Abib -- are summarized below as is documented in 4Q319:
   17 signs for the first Jubilee; 3 signs in the Week of Release
   16 signs for the second Jubilee; 2 signs in the Week of Release
   16 signs for the third Jubilee; 2 signs in the Week of Release
   17 signs for the fourth Jubilee; 3 signs in the Week of Release
   16 signs for the fifth Jubilee; 2 signs in the Week of Release
   16 signs for the sixth Jubilee; 2 signs in the Week of Release

B3. Dead Sea Scrolls Calendar Footnotes

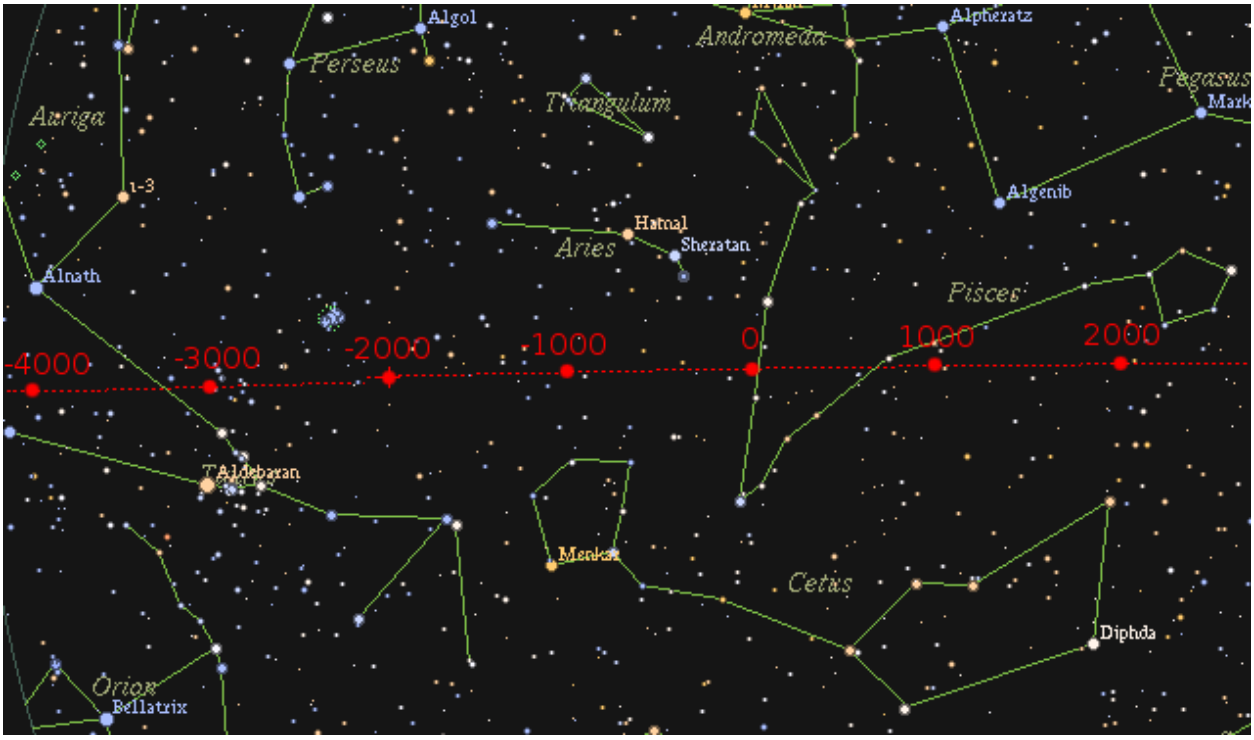
4 Cycles in the Calendar :

1. Solar cycle – months are based on the solar cycle. Every three months, the month starts on the same day of the week.

2. Lunar cycle – every three years, the lunar cycle repeats. I think this is how they determined which year they were supposed to set aside a tithe for the poor.

3. Priest cycle – the priests rotate through their cycles 13 times in six years. The first year starts with Gamul. After six years (the full length of the calendar diagrammed as well as the extent of what was recorded in the scrolls), the year starts with Gamul again.

4. Constellation cycle – the sun moves through all the constellations once a year.



B4. The order of the service for the Priests of YaHuWaH (YHWH)

1 Ch 24: 7-19

The Order of the Service for The Priests of YahuVaH

1 Chronicles Ch. 24

1Ch 24:7 Now the first lot came forth to Yehoiariv [YaHuVaH contends],
the second to Yedayah [YaHuVaH has known],
1Ch 24:8 the third to Harim [Dedicated for destruction],
the fourth to Seorim [barley],
1Ch 24:9 the fifth to Malkiyah [my ruler is YaHuVaH],
the sixth to Miyamin [from the Right Hand],
1Ch 24:10 the seventh to Hakkotz [thorn],
the eighth to Aviyah [YaHuVaH is (my) abba/ father],
1Ch 24:11 the ninth to Yehoshua [YaHuVaH is Salvation],
the tenth to Shekhanyahu [dweller with YaHuVaH],
1Ch 24:12 the eleventh to Elyashiyb [Elohim restores],
the twelfth to Yakim [He will raise],
1Ch 24:13 the thirteenth to Chuppah [canopy],
the fourteenth to Jeshebeab [dwelling of the abba/ father],
1Ch 24:14 the fifteenth to Bilgah [cheerfulness],
the sixteenth to Immer [he hath said],
1Ch 24:15 the seventeenth to Hetzir [swine],
the eighteenth to Pitztzetz [to break],
1Ch 24:16 the nineteenth to Petachyah [freed by YaHuVaH],
the twentieth to Jehezkel [Elohim strengthens/ Ezekiel],
1Ch 24:17 the one and twentieth to Yakhin [He will establish],
the two and twentieth to Gamul [weaned, recompense, ripening, dealt bountifully],
1Ch 24:18 the three and twentieth to Delayah[YaHuVaH has drawn],
the four and twentieth to Ma`azyah [consolation of YaHuVaH].
1Ch 24:19 This was the ordering of them in their service, to come into the house of YaHuVaH according to the ordinance *given* to them by Aharon their father, as YaHuVaH, the Elohim of Yisra'el, had commanded him.

Jubilee Accounting
from Creation to the New Heaven and New Earth

	131	6371	6372	6373	6374	6375	6376	6377	6378	6379	6380	6381	6382	6383	6384	6385	6386	6387	6388

Please take note that

1. **the 120th jubilees according to this chart will be completed on year 5880 which is Year 2024 in our current calendar.**
2. **Messiah died in the middle of a week of the 70 Jubilees that been prophesied by Daniel, the 4th sabbatical week (the 4th day of the week, Aviv Passover Feast week of 30 AD) The priest on duty is immer; the first priest of that year is Yeshebab: "seat of (his) father", It is a 5/6 Priestly circle. year 2 in the shmeetah cycle.**
3. **Year 70AD was Sabbatical year, the priest on duty was Miyamin, the 3rd of 6 years priestly order cycle.**

C. The scripture had recorded some important Jubilee years in human history:

When will be the 120 Jubilee years – aka the 6000 years from Adam in our current calendar?

There are 2 methods (7X7_49 Sabbatical year as one Jubilee vs **50**) **to do** the Jubilee year's calculation, however, they actually come to the same result when it reaches the 120 Jubilee years; which is year

2043/2044 A.D. The year 6000 of both calculations falls **on** 2043 Fall / **2044 Fall!**

TABLE 1. 49 Years Synchronized with 50 Years

49-year cycle		50-year cycle		
BC 3957	Adam	BC 3957		Adam becomes human
2548	52 x 49	2550	51 x 50	
BC 1409		BC 1407		Joshua's conquest
952	136 x 7	950	19 x 50	
BC 457		BC 457		Ezra's return to Jerusalem
2450	50 x 49	2450	49 x 50	
AD 1994		AD 1994		
50	1 x 49 + 1	50	1 x 50	
AD 2044	122 x 49 + 22	AD 2044	120 x 50	Year 6,000

Table 1
illustrates the 50-year and 49-year jubilee cycles beginning in 3957 BC on down to 1407 and 457 BC. In the 50-year cycle, the jubilee would be in the years 57 and 07. **This means Joshua's conquest in BC 1407 began a jubilee cycle.** 300 years later, in 1107 BC, Jepthah was a judge in a jubilee year (Jud 11:26), 140 years before the temple (I Kings 6:1). 950 years after Joshua's conquest, in **457 BC, Ezra allegedly returned from Babylon to Jerusalem in 457 BC,**

and this was 2450 years (49 x 50) before 1994 AD. Apostle James was beheaded in 44 AD. Seventh Day Adventists expected Christ's return in 1844 AD, 2300 years **after 457 BC. 1944, 1994 and 2044 AD would** be jubilee years. In the 50-year cycle, note also that the above 51 x 50 years down to Joshua's conquest in 1407 BC is equal to 2550 years (1260 + 1290 = 2550) after Adam (3957 BC – 2550 = 1407 BC). Using the 49-year cycle, the rabbis said there were 2450 years (49 x 50) from Adam to the Exodus, whereas, there were actually 2510 years. **The difference is 60 years, which they removed between Abraham and his father.** http://code251.com/6000-year-chart.pdf

TABLE 4. 49 Solar Years equal 50½ Lunar Years

by Floyd R. Cox5-06-2015

49 Solar years after Nisan 1 of year 1 >	After 48 solar years after Nisan 1 of year 1 = 17,531 days →					48.5 solar years after Nisan 1 of year 1 = 17,714 days →						49 solar years after Nisan 1 of year 1 = 17,896 days
	1st Moon Nisan	2nd Moon Iyar	3rd Moon Sivan	4th Moon Tammuz	5th Moon Ab	6th Moon Elul	7th Moon Tishri	8th Moon Heshvan	9th Moon Kislev	10th Moon Tebeth	11th Moon Shebat	12th Moon Adar
50.5 Lunar years after Nisan 1 of year 1 >	After 49.5 lunar years after Nisan 1 of year 1 = 17,541 days →					50 lunar years after Nisan 1 of year 1 = 17,718 days →						50.5 lunar years after Nisan 1 of year 1 = 17,895 days

Table 4 can be extrapolated as follows:

49 solar years	= 50.5 lunar years.	= 1 jubilee
98 solar years	= 101 lunar years.	= 2 jubilees
196 solar years	= 202 lunar years.	= 4 jubilees
294 solar years	= 303 lunar years.	= 6 jubilees
392 solar years	= 404 lunar years.	= 8 jubilees
490 solar years	= 505 lunar years.	= 10 jubilees
588 solar years	= 606 lunar years.	= 12 jubilees

Notes on TABLE 4

TABLE 4 shows that 49 solar years end at the same time as 50½ lunar years, and both get a fresh start at the beginning of the 50th solar year after Nisan 1 of year 1.

The 50th solar year would be the first year of the next 49 years after Nisan 1 of year 1.

The 50th solar year would be the first year of the next 50½ lunar years after Nisan 1 of year 1.

The 50th solar year would be the first year of the next sabbatical cycle after Nisan 1 of year 1.

The 50th solar year would be the first year of the next jubilee cycle after Nisan 1 of year 1.

Therefore, it also becomes obvious that the jubilee year is the commencement of the next 49 years, not the ending of the jubilee cycle. Joshua crossed the Jordan at the commencement of the jubilee cycle.

This chart also merges with a 52-week year, which consists of only 364 days even though it would be missing 1.242 days each year. These missing days accumulate to 365.242 days in 294 years, that is, in 6 jubilees (365.24219 / 294 = 1.242 days). This means that 52 weeks need to be inserted during each 294 years in order to keep it as accurate as our Gregorian calendar.

Please pay close attention on this Jubilee chart above, the most perfect observation of it must be in a calendar of a **52 shabbats yearly (the Shabbat is the 7th day within a weekly cycle) and the year must consist of only 364 days which was mentioned in the book of Enoch chapter72 as well as being observed by the priesthoods located in Qumran area; that we have verified by the Enoch Priestly order DSS Calendar presented in the beginning of this article!**

D. Attached below is an article great for further thought relating to this jubilee topic being discussed above.

Jubilee on Atonement, 2022 AD?
Becoming in Sync with the Higher Realm

by Floyd R. Cox (5-18-2015)

I wrote to a friend in Alaska telling him there will likely be a jubilee in 2043 or 2044. He replied that he would be age 103 by then and, therefore, wasn't very interested, but it should be special for the next generation. Then it hit me. Dates used were based upon counting from when Joshua crossed the Jordan river in conquest of the Promised Land.

If we began with creation in 3957 BC, the next jubilee would be in 2022 AD! And I have ten sources that also begin with Adam (see page 2).

First Some Basics

First, what is generally believed? Many believe Christ came to fulfill the 10 jubilees (490 years) they have found in Daniel 9:24- 25, which would end in 34 AD. Evidently, those who deny this fulfillment were destined to continued expecting their Messiah during future 49-year jubilees after 34 AD, that is, in 132, 622 and 2043 AD.

51 times 49 years after 457 BC down to 2043 AD

It is commonly believed that jubilees and the first 490 years began in 457 BC, when Ezra returned from Babylon to Jerusalem, and, therefore, the jubilees would again arrive in 34, 132, 622 and 2043 AD.

This view has 69 jubilees of 49 years each from Joshua's conquest in 1407 BC to 1975 AD and 51 jubilees of 49 years each from Ezra's return in 457 BC to 2043 AD.

In 132 AD, Simon bar Kokhba claimed to be the true Messiah and Redeemer of the Jews. Coins and land deeds show that 132 AD was a jubilee year, 98 years after the jubilee in 34 AD. He led two million Jews in a revolt against Roman occupiers to redeem their land, which Joshua had given them.

490 years (ten jubilees) after 132, in 622 AD, Muhammad, along with 12 followers, left Mecca and arrived at Medina, where he learned about some Jewish beliefs. This Jewish settlement was expecting the appearance of their Messiah, and Muhammad's arrival was 10 jubilees after 132 AD, 12 jubilees after 34 AD and 21 jubilees after 457 BC. His arrival 622 AD began a new Islamic calendar, and another jubilee is, therefore, slated for 2043 AD. This implies that a messianic movement may be in 2043 AD to fulfill the jubilee.

In recent decades, we have even more self-appointed calculators of the Grand Design for our lower realm. One commentator said the jubilee cycle began in 1407 BC, when Joshua crossed the Jordan to begin his conquest of the Promised land (Lev 25:2), and the jubilees allegedly occurred every fifty years down to 457 BC in years 07, 57, 07, 57, etc. during each century.

46 times 50 years after 457 BC down to 2044 AD

However, the Millerites and Adventists used a 50-year jubilee cycle after 457 BC. They believed the Messiah would come in 1844 AD, after 2300 years (as they allegedly found in Dan 8:14). This would amount to 46 jubilees (46 x 50) after Ezra's return to Jerusalem in 457 BC and envisioned as part of a 50-year Grand Jubilee Design linked with 457 BC.

What would, eventually, fulfill the pattern evolved as future current events seemed to fit.

TABLE 1. The Millerite Grand Jubilee Design		
AD	**Yrs after 457 BC**	**Pattern & Special Events**
34	490 yrs (Dan 9:24)	49 x 10 First Advent
1844	2300 yrs (Dan 8:14)	50 x 46 Perhaps a Second Advent after 2300 years
	2350 yrs	50 x 47
1944	2400 yrs	50 x 48 Perhaps Hitler and Mussolini are important
1994	2450 yrs	50 x 49 Perhaps a great Jubilee of Jubilees Perhaps the church is scattered
2044	2500 yrs	50 x 50 Perhaps a great false prophet as in 2 Thes 2:3-4.

Moreover, there are 3450 years (65 jubilees of 50 years each) from 457 BC to 2044 AD. These jubilees repeat in the years 1844, 1894, 1944, 1994 and 2044 AD. There are 69 jubilees of 50 years each from Joshua's conquest in 1407 BC to 2044 AD.

The Millerites expected "the end" to be on the day of Atonement, in 1844, when the jubilee would begin. Therefore, a jubilee in 2043 or 2044 would also begin on Atonement.

These appear to be an expansion of smaller cycles, such as, 7 days (Ex 31:15), 7 weeks (Deut 16:9), 50 days (Lev 23:15-16), and 7 months (Lev 23:24-25) in the Grand Design.

From just a superficial overview, without searching for just how many mutations evolved when Jews migrated, merged and morphed into other religions, such as, Messianic, Hebrew Roots and Adventist movements, it should not come as a surprise if they all will come to believe a jubilee will happen in 2043 or 2044 AD and perhaps set the stage for another messianic movement.

An Alternative View by Counting down from Creation

As mentioned above, if the next jubilee were to occur in 2043-44 AD, this would be less significant to those now over age 75. They would then be over 103. Therefore, it is tempting to explore another view that would reduce the date to 2022 AD, and this would require that we take a new approach by starting the jubilees at creation in 3957 BC instead of beginning at Joshua's conquest in 1407 BC.

The cycle of 7 years, 49 years and 490 years seems the most credible because the cycles following 457 BC are loaded with false messiahs and disappointments, and they do not begin with creation.

Actually, the following ten sources begin counting the jubilees with Adam:

1. The book of Jubilees converts ancient history into weeks of seven years each and jubilees of 49 years. For instance, Jubilees 4:29 says Adam died at the end of 18 jubilees (882 years), six weeks (42 years), and six years (882+42+6=930), in the 19th jubilee year.

2. Joseph was age 44 at the end of the seven years of "fat cows" and seven years of "lean cows" in Egypt, which ended 2303 years (47 jubilees) after Adam, that is, 28 jubilees after Adam's death. This implies that Joseph was in sync with the Higher Realm and also implies that each of us should do likewise, but who knows just when the jubilees are today?

3. The Samaritan text has 1708 years (427 x 4) or 244 sabbaticals from Adam to the fall of Babel, when the tribes were scattered. The Masoreh text (& King James version) has 1757 years (251 sabbaticals) for this same period.

4. The Samaritan view has 2793 years (399 jubilees) from creation to Joshua's conquest. Joshua crossed the Jordan in the beginning or the 400th jubilee cycle, in year 2794 BC.

5. Josephus said that Herod captured Jerusalem in a sabbatical year. This would be in 37 BC, that is, 3724 years after Adam. This would also be 196 years (4 jubilees) times 19 or 196 19-year cycles after Adam. Or it would be 532 sabbaticals (7 Easter cycles) after Adam.

6. 37 BC is 294 years (6 jubilees) after Alexander met the High Priest at Jerusalem in 331 BC and allowed the Jews to observe the sabbaticals without paying tribute. From this view, there were jubilees in 331 and 37 BC. (Note: The rabbinical 50-year pattern would place a jubilee in 458, 408, 358, 308, 258, 208, 158, 108 and 58 BC, 21 years before 37 BC.)

Upon seeing the procession of the priests all dressed in white and following the High Priest wearing his breastplate, Alexander bowed before the priest and confessed he had seen a vision of this scene.

7. However, if there were a jubilee in 37 BC, it does not align with a jubilee in 34 AD, 490 years after 457 BC. Something appears to be wrong. The cycles are 70 years apart instead of 49 years, and these two are 21 years apart (70-49=21). Why do they not align?

8. The next jubilee following 37 BC after our present time will be in 2022-23 AD, that is, 21 years before the one alleged to be in 2043 AD.

9. This cycle also aligns with the jubilee of 1189 AD, when Richard de Lionhearted was crowned and led the Third Crusade against the Arabs near Jerusalem.

10. One way to correct a calendar with exactly 30 days per month is to add five days at the end of each year as was done in Egypt until Alexander. Another way is to add 30 days after six years. This creates a seven-year cycle of 1260 days plus 1290 days.

Likewise, there are 1260 years plus 1290 years in 364 sabbaticals, that is, 2548 years from Adam (3957 BC) to 1409 BC. Joshua crossed the Jordan in 1407 BC and conquered the Promised Land in five years, when Caleb was age 85, in 1402 BC, that is, 365 sabbaticals after Adam. Others count sabbaticals from the time of Joshua's conquest in 1407 BC, which makes a two-year discrepancy. From 1407 BC to 1975 AD, there are 3381 years, that is, 69 jubilees. Sabbaticals and jubilees began in 3957 BC if 37 BC was a sabbatical, when Herod captured Jerusalem in the 80th jubilee year (49 x 80 = 3920 yrs).

Calendar Update

The Messianic, Hebrew Roots and Adventist movements calculate the next jubilee from 457 BC, when Ezra the priest removed from Babylon to Jerusalem. From this date, the Jews' 49-years cycle arrives in 1994 AD (after 49 x 50 years) between 1845, 1896, 1945, 1994, 2043 AD. The Adventist 50-year cycle also arrives in 1994 AD (after 50 x 49) between 1844, 1894, 1944, 1994 and 2044 AD. In contrast, the next jubilee would be in 2022 AD if we count from Adam in 3957 BC, and the countdown would be as follows:

TABLE 2. Today's Sabbatical / Jubilee Cycle
by Floyd R. Cox 5-5-2015

	Beginning of Calendar Year *1st 177 days in 6 moons*	*End of Calendar Year* *2nd 177 days in 6 moons*
2000-01	6th yr of 7. New moon, Nisan 1, **2000** to the New moon, Tishri 1, **2000** for producing bread and wine	6th yr of 7. New Moon, Tishri 1, **2000** to New Moon, Nisan 1, **2001**
Sabbatical 2001-02	7th yr of 7. Nisan 1, **2001** to Tishri 1, **2001** Gleaning only	**7th yr of 7. Tishri 1,** 2001 **to Nisan 1, 2002**
2002-03	1st yr. Nisan 1, **2002** to Tishri 1, **2002**	1st yr, Tishri 1, **2002** to Nisan 1, **2003**
2003-04	2nd yr, Nisan 1, **2003** to Tishri 1, **2003**	2nd yr, Tishri 1, **2003** to Nisan 1, **2004**
2004-05	3rd yr, Nisan 1, **2004** to Tishri 1, **2004**	3rd yr, Tishri 1, **2004** to Nisan 1, **2005**
2005-06	4th yr, Nisan 1, **2005** to Tishri 1, **2005**	4th yr, Tishri 1, **2005** to Nisan 1, **2006**
2006-07	5th yr, Nisan 1, **2006** to Tishri 1, **2006**	5th yr, Tishri 1, **2006** to Nisan 1, **2007**
2007-08	6th yr, Nisan 1, **2007** to Tishri 1, **2007** for producing bread and wine	6th yr, Tishri 1, **2007** to Nisan 1, **2008**
Sabbatical 2008-09	7th yr, Nisan 1, **2008** to Tishri 1, **2008** Gleaning only	7th yr, Tishri 1, **2008** to Nisan 1, **2009**
2009-10	1st yr, Nisan 1, **2009** to Tishri 1, **2009**	1st yr, Tishri 1, **2009** to Nisan 1, **2010**
2010-11	2nd yr, Nisan 1, **2010** to Tishri 1, **2010**	2nd yr, Tishri 1, **2010** to Nisan 1, **2011**
2011-12	3rd yr, Nisan 1, **2011** to Tishri 1, **2011**	3rd yr, Tishri 1, **2011** to Nisan 1, **2012**
2012-13	4th yr, Nisan 1, **2012** to Tishri 1, **2012**	4th yr, Tishri 1, **2012** to Nisan 1, **2013**
2013-14	5th yr, Nisan 1, **2013** to Tishri 1, **2013**	5th yr, Tishri 1, **2013** to Nisan 1, **2014**
2014-15	6th yr, Nisan 1, **2014** to Tishri 1, **2014** for producing bread and wine	6th yr, Tishri 1, **2014** to Nisan 1, **2015**
Sabbatical 2015-16	7. Nisan 1, **2015** to Tishri 1, **2015** Gleaning only	Tishri 1, **2015** to Nisan 1, **2016**
2016-17	1st yr, Nisan 1, **2016** to Tishri 1, **2016**	1st yr, Tishri 1, **2016** to Nisan 1, **2017**
2017-18	2nd yr, Nisan 1, **2017** to Tishri 1, **2017**	2nd yr, Tishri 1, **2017** to Nisan 1, **2018**
2018-19	3rd yr, Nisan 1, **2018** to Tishri 1, **2018**	3rd yr, Tishri 1, **2018** to Nisan 1, **2019**
2019-20	4th yr, Nisan 1, **2019** to Tishri 1, **2019**	4th yr, Tishri 1, **2019** to Nisan 1, **2020**
Overview 2020-21	5th yr, Nisan 1, **2020** to Tishri 1, **2020**	5th yr, Tishri 1, **2020** to Nisan 1, **2021**
48th yr 6th yr of Lev 25:21 2021-22	6th yr, Nisan 1, **2021** to Tishri 1, **2021** for producing bread and wine	6th yr, Tishri 1, **2021** to Nisan 1, **2022**
Sabbatical jubilee 2022-23 AD **49th yr**, 7th yr "the year of the Jubilee year"	7th yr, Nisan 1, **2022** to Tishri 1, **2022** Gleaning only	7th yr, Tishri 10, **2022** to Tishri 10, **2023**
Jubilee until Tishri **2023** **50th yr**, 8th yr of Lev 25:22 Nisan to Nisan	1st yr, Nisan 1, **2023** to Tishri 1, **2023**	1st yr, Tishri 1, **2023** to Nisan 1, **2024**

In the Jewish rabbinical, Messianic view, the Grand Design becomes the primary concern, and more important than the "alleged" first Advent, the Messiah's conception, birth, death, resurrection, ascent into heaven to co-rule with his Father over all flesh, all demons and all things. In this view, Revelation is removed from its first century context and applied only to future dates in which the Messiah has been calculated to arrive, and every generation since the first century has had its calculators trying to attach current events primarily to current jubilees of their time.

In this view, the Jews are allies and founders of Christianity, and its mentors and counselors regarding the observance of new moons, full moons, seasons and 49-year cycles in our lower realm while hoping these observances will uncover some hidden clues that unveil the Messiah's future Advent and make us in sync with the Higher Realm.

Only relationships with other Messianic, Hebrew Roots and Rabbinical members of the Kingdom, insiders with their exclusivist information are important, and they often view Christianity as a temporary movement that will, eventually, revert back to the control of Levites, temple worship, and sacrificial offerings after their Messiah comes.

In this view, Christians and the above movements sometimes merge to become allies, comrades, and relatives of those who have denied or minimized the first Advent. There is a huge difference in a genuine prophet and calculating speculators.

TABLE 2 is an update revised from page 19, *A Treatise on the Sabbatical and the Jubilee*, by Dr. Benedict Zuckermann, Professor at the Jewish Theological Seminary, Breslau, Poland. His sabbatical cycle for today would begin in the fall, on **Tishri 1, 2014**, but the grain harvest would be after Nisan 1, in the spring of 2015. In contrast, Dr. Ben Zion Wacholder's sabbatical cycle for today would begin in the fall of **Tishri 1, 2015**.

Zuckermann presents several rabbinical views on the Ecclesiastical year beginning on Nisan 1, in the spring, and the Civil year beginning on Tishri 1, in the fall, but he lacks details on servants being freed in the fall of the sixth ecclesiastical year because the land was to be untilled that fall and lie fallow after the spring of the seventh ecclesiastical year. The same detail is lacking for the end of the fall of the 49th ecclesiastical year.

Years all begin in the spring, not in the fall. Confusion comes from the spring being called "the beginning of the year", and the fall harvest is "the end of the year", which implies that new years begin in the fall.

Hebrew servants were to be freed after the sixth year, (Jer 34:13-14), and tilling and planting in the 6th year would provide enough for three years, for the 6th and 7th and 8th years, until the spring harvest of the 9th year (Lev 25:21, 22) as in TABLE 2.

Perhaps Hebrew servants, Farmhands and bondmen are released in the spring of the seventh year, after serving six years (Deut 15:1,9,12; Jer 34:13-17,22). All calendar years actually begin every year in the spring except the jubilee in fall of the 49th year, "the year of the 50th year" (Lev 25:8-9). Israelites return to their land (Lev 25:13) after the 10th day of the 7th month (Lev 23:27, 32) of the seventh (i.e. 49th) year (Lev 25:8-9).

Cautions about the Rabbinical Calendar

Regardless of those claiming the Jews have preserved the oracles of God, including the calendar, there is still good reason for approaching the rabbinical calendar with caution. First of all, its date of creation in 3761 BC is always used to define the 19-year cycle in 37 BC and during the first century AD. The 19-year cycle should actually begin in 3957 BC, at the true date of creation, which is reflected in the 19-year cycle after Adam lived 49 19-year cycles, and that cycle merges with the 19-year cycle of Nabonassar's calendar of 747 BC and with the Islamic calendar of 622 AD.

The Jews had removed 196 years (4 jubilees) between 3957 and 3761 BC for creation. Their date for Solomon's temple is 832 BC instead of 968 BC, plus they removed 60 years between Abraham and his father. This makes 196 years removed, which prevents the two 19-year cycles of 3761 and 3957 from having the same 19-year cycles. New moons and full moons are the same, but intercalation of the seven extra moons during the 19 years is during different years. Years with 13 months are different in both cycles.

Josiah found the lost book of the Law in 623 BC, and began a new reform and a new jubilee cycle at that time, but the rabbis delayed this 166 years to 457 BC making this the beginning of Josiah's reform and the jubilee cycle. This cycle repeats in 407 BC, 34, 83, 132, 622 and 2043 AD, branching from Josiah's reform allegedly in 457 BC and the fall of Jerusalem allegedly in 421 BC, 490 years before the second temple fell in 70 AD.

Next, the rabbis began every civil year in the fall instead of in the spring, which is confusing when fellow Hebrews were to be released in the seventh year, after serving six years. This appears to be confused with blowing the trumpet of freedom in the fall of the seventh year, after 49 years (Lev 25).

TABLE 3. *Three Views for Dating the Sabbatical Year* (Revised on 5-11-2015)

	View of Zuckermann *(& Macedonian Greeks) Tishri to Tishri* ***(Fall to Fall)***	***View of Wacholder*** *(& Macedonian Greeks) Tishri to Tishri* ***(Fall to Fall)***	***View of Jeremiah, Nehemiah, Haggai, Zechariah, Esther and*** *I-II Maccabees (Nisan to Nisan)* ***(Spring to Spring)***
Sabbatical - First year of Nebuchadnezzar	BC 605-604	BC 604-603	BC 604

TABLE 4. 49 Solar Years equal 50½ Lunar Years

by Floyd R. Cox 5-06-2015

49 Solar years after Nisan 1 of year 1 >	**After 48 solar years** after Nisan 1 of year 1 **= 17,531 days** →	**48.5 solar years** after Nisan 1 of year 1 **= 17,714 days** →	**49 solar years** after Nisan 1 of year 1 **= 17,896 days**

1st Moon Nisan	2nd Moon Iyar	3rd Moon Sivan	4th Moon Tammuz	5th Moon Ab	6th Moon Elul	7th Moon Tishri	8th Moon Heshvan	9th Moon Kislev	10th Moon Tebeth	11th Moon Shebat	12th Moon Adar

50.5 Lunar years after Nisan 1 of year 1 >	**After 49.5 lunar years** after Nisan 1 of year 1 **= 17,541 days** →	**50 lunar years** after Nisan 1 of year 1 **= 17,718 days** →	**50.5 lunar years** after Nisan 1 of year 1 **= 17,895 days**

Table 4 can be extrapolated as follows:

49 solar years	= 50.5 lunar years.	= 1 jubilee
98 solar years	= 101 lunar years.	= 2 jubilees
196 solar years	= 202 lunar years.	= 4 jubilees
294 solar years	= 303 lunar years.	= 6 jubilees
392 solar years	= 404 lunar years.	= 8 jubilees
490 solar years	= 505 lunar years.	= 10 jubilees
588 solar years	= 606 lunar years.	= 12 jubilees

Notes on TABLE 4

TABLE 4 shows that 49 solar years end at the same time as 50½ lunar years, and both get a fresh start at the beginning of the 50th solar year after Nisan 1 of year 1.

The 50th solar year would be the first year of the next 49 years after Nisan 1 of year 1.

The 50th solar year would be the first year of the next 50½ lunar years after Nisan 1 of year 1.

The 50th solar year would be the first year of the next sabbatical cycle after Nisan 1 of year 1.

The 50th solar year would be the first year of the next jubilee cycle after Nisan 1 of year 1.

Therefore, it also becomes obvious that the jubilee year is the commencement of the next 49 years, not the ending of the jubilee cycle. Joshua crossed the Jordan at the commencement of the jubilee cycle.

This chart also merges with a 52-week year, which consists of only 364 days even though it would be missing 1.242 days each year. These missing days accumulate to 365.242 days in 294 years, that is, in 6 jubilees (365.24219 / 294 = 1.242 days). This means that 52 weeks need to be inserted during each 294 years in order to keep it as accurate as our Gregorian calendar.

Conflicting Ideas Addressed

There are several conflicting ideas about how the jubilee year is inserted.
Here is a revision of Leviticus 25, which describes the 49th year sabbatical and 50th year jubilee:

1. 48 solar years equal 17,531 days, 48.5 solar years equal 17,714 days, and 49 solar years equal 17,896 days as in TABLE 4.

2. 49.5 lunar years equal 17,541 days; 50 lunar years equal 17,718 days and 50.5 lunar years equal 17,895 days, which is one day less than 49 solar years! Therefore, it seems likely that both cycles started in the spring, at the beginning of the 1st year, after the previous 49 complete solar years. The 50th solar year and 51st lunar year begin over again in the next spring, after Nisan 1 as in TABLE 4.

The jubilee was announced in the fall of the 49th year (after 48.5 solar years) to proclaim that land had been redeemed and everyone could return to original settlements Joshua had given their ancestors.

During the Bar Kochba revolt, the jubilee was announced in the fall of the 7th year, in 132 AD, when land contracts were made to cover the next five years (not six), until the next sabbatical.

3. The 50 years are related to the lunar years, the 10th day of the 7th new moon. The temple was burned exactly 10 moons after the previous day of Atonement on the 10th day of the 7th moon (Lev 23:32; Jer 52:12,13).

4. Years begin in the spring. When Joshua crossed the Jordan, he took produce planted by others in the previous fall, which he had not planted. He gave a Wave Sheaf offering of the first fruits of the land from that produce, and the manna immediately stopped on that same Sunday. This was the beginning of year one of the jubilee cycle.

5. A year later, and in the 3rd 4th, 5th, 6th and 7th years of the jubilee cycle, Joshua continued taking produce planted by others since the previous fall. During these years, the Israelites had not yet divided and settled their conquered land except on the east side of the Jordan.

6. It is likely that, during the 7th year, Joshua cast lots to determine which areas each tribe would inherit, and they removed from Joshua to till and plant their own fields and reap in the spring and summer of the first year of the next sabbatical cycle.

7. This scenario covers the sabbatical years in the 7th, 14th, 21st, 28th, 35th, 42nd, and 49th years but does not address how to insert the jubilee in the 7th month of the 49th year. There would be tilling and sowing in spring, summer (and fall?) of the 6th year (the 48th solar year).

In the spring and summer of the the 49th (7th) year (as in TABLE 1; Lev 25:22), land remains fallow until sowing is allowed in the fall of the 50th (8th) year. Therefore, reaping would be restored in the spring and summer of the 51st (9th) year (Lev 25:22). This accounts for two land rest years in a row. This is somewhat like the two days, Sabbath and Pentecost, are always two rest days in a row, but a new week begins on Pentecost (the 50th day), which is both the "1st day" and the "8th day" of the week.

8. Agricultural years began in the spring, "at the beginning of the year", and ended after harvest, after the 7th month, "at the end of the year" (Ex 23:14,16; 34:22). The trumpet of the jubilee was to be sounded on the 10th day of the 7th month (Tishri) of the 7th (49th) year (during the sabbatical) (Lev 25:8, 9).

9. The jubilee began after the harvest because land was to be sold based upon how many harvests remained until the next jubilee (Lev 25:23-28). The value was linked directly with harvests expected. The period after the fall jubilee was announced was for returning to repossess former lost property. The following fall was for releasing manual labor, not for tilling, planting, reaping the after growth or harvesting the untrimmed vines. As found in the Bar Kochba land contracts of 132 AD, land was rented for five years, five harvests, after the jubilee. Therefore, there was a land rest in the first year.

10. The sabbatical calendar of 364 days per year loses 49 days in 49 years and loses 7 days every 28 years. This calendar seems appropriate for the priests serving in the temple 13 weeks per season, 25 weeks per half year and 52 weeks per year. In the 7th year, there would be 53 weeks. However, it has only 364 days and loses 1.24219 days per year and loses 365.2 days in 294 years (6 jubilees).

The Easter Cycle of 532 years each repeats seven times (without subtracting a day every 128 years) between creation (3761 BC) and 37 BC (when Herod captured Jerusalem).

For now, unlike in Daniel's time, it is alleged that the Higher Realm cannot set up kings and put down kings because an evil spirit rules the world. The logical reason for the imperfection is that the lower realm is hands-off for now, and followers of the Higher Realm should not get involved with politics.

Years begin in the Spring

It becomes obvious that the first year of the 49 years is the commencement of the jubilee cycle, not the ending. Joshua crossed the Jordan at the commencement of the jubilee cycle, and the 50th year was the first year of the next cycle.

In the seventh month of the seventh year (at the ending of the 49 years, Lev 25:9), the trumpet of the jubilee would prohibit tilling or planting that fall, and everyone would return to his land, which Joshua had given his ancestors (Lev 25:28; Jer 33:26). (This is often used to predict the return of the Jews from all nations and the return of the Messiah.)

This preparation year (in the 6th year) for the 7th year has confused many because, at the end of the 2nd century AD (centuries after the fact), one comment in the books of the Mishnah (traditions in the Talmud) says the seventh year began on Rosh Hashana, the first day of the 7th month. However, there is no evidence in all the biblical texts after Moses that even suggests the 7th year began in the fall.

Jeremiah's book was burned in the 9th month, in the winter. Years in Maccabees and Josephus are in the month of Nisanu or Nisan, the 1st month.

Both Benedict Zuckermann and Ben Zion Wacholder (both being rabbis from Poland) began all calendar years in the fall, following traditions of the Mishnah both having influenced the "Jewish calendar" and those in Palestine today.

TABLE 5. Years began in the Spring?

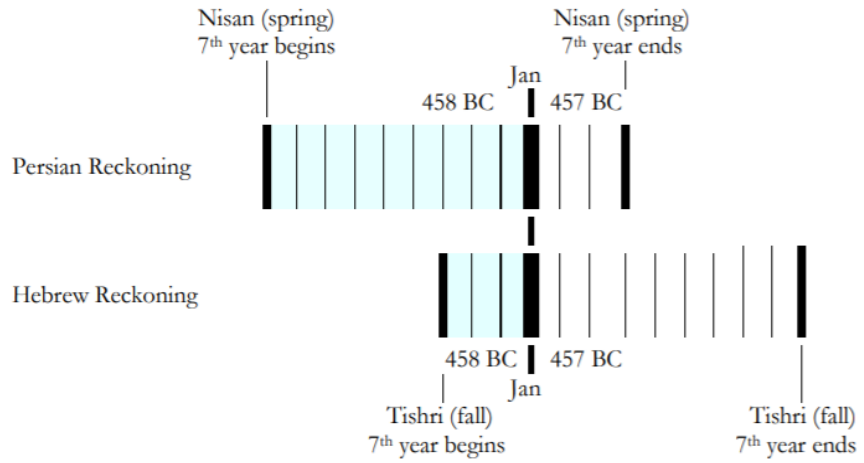

Table 5 Illustrates how the calendar began in the spring giving us the names of the month September (7th), October (8th), November (9th) and December (10th).

However, the rabbinical Hebrew calendar began in the fall. Ezra allegedly returned to Jerusalem in the spring of 457 BC. The Nabonassar calendar of 747 BC and the Islamic calendar of 622 AD also began in the spring. Moses' calendar, Solomon's calendar and Jeremiah's calendar all began in the spring. This provides a substantial basis for determining just when sabbaticals should begin in the spring of 2008, 2015 and 2022 AD.

However, the Millerites placed special recognition of Tishri 10, 1844, AD, because it was allegedly the beginning of a jubilee year in the fall.

We are still left with a significant problem. The rabbinical chronology says the first temple burned in the sabbatical of 422-21 BC, the 36th year after Josiah found the lost book of Moses in 458-57 BC. Josiah actually found the lost book and began his reform 166 years earlier, in 623 BC, and the temple actually burned in 588-87 BC, the 36th year after he found the book.

Josiah, if placed in 458-57, would falsely appear to be the beginning of a jubilee cycle, that is, if Josiah were actually in 623-22 and began a true jubilee cycle at the beginning of his reform. If this is true, then all 50-year and 49-year jubilees stemming from 458-457 BC are artificial and not valid. They do not merge with the known jubilees since creation and repeated in 331 and 37 BC and 1189 and 2022 AD.

Just a theory, but perhaps Christians swapped Ezra for Josiah in order to artificially create a 490-year messianic movement ending in 34 AD (Dan 9:24-25). This would create the view that the Jews knew precisely, in advance, when their Messiah would arrive.

More research needs done on Ezra's return in the seventh year of Artaxerxes (Darius). Archbishop James Ussher says Esther became Queen of Persia in 515 BC, in the year after the temple was finished, in the seventh year of Ahasuerus (Darius). Her first cousin, Mordecai, was taken captive to Babylon in 598 BC (Esther 2:6). Ezra returned with other priests to care for new temple services (See Nehemiah 12:1). Nehemiah returned in the 20th year of Artaxerxes (Darius), in 502 BC.

Appreciating the Sabbatical Year

Some say the sabbaticals were meant for the Hebrews while they lived in Palestine. After Josiah found the lost book of Moses in 623 BC, it led to a reform. The Jews pledged to begin keeping every word in the book, including the Sabbath, new moons, full moons, sabbaticals and jubilee years. 35 years later, in 588 BC, they refused to release their fellow Hebrew servants from debt and slavery (Jer 34:13-15). Therefore, another release was issued, a release of the Jews into captivity and sent them into exile from their own land. The temple was burned at the end of that sabbatical year, in 587 BC (Jer 34:22).

All Nations Included?

An objection today is that the Jews were not required to observe sabbaticals or jubilees after being ousted from their land. This may seem true if the jubilee cycle did not begin at creation. Adam died in the 19th jubilee year according to the *Book of Jubilees*. Joseph was in sync with the Higher Realm when seven fat years and seven lean years ended in the 47th jubilee year after Adam.

If Adam became human at the beginning of a jubilee cycle in 3761 BC, 76 jubilees before a jubilee in 37 BC (when Herod captured Jerusalem), or if it was in 3957 BC, 80 jubilees before a jubilee in 37 BC, then, in either case, all nations should be acquainted with the sabbaticals and jubilees since Adam, not just the Jews.

Appreciating the Benefits

In an ideal world, tax laws should be reformed to allow everyone a fresh, new start and have freedom to relax and travel every seven years, not just every seven days.

In America, colonial governors attracted settlers from other worlds by granting them land without paying taxes for seven years. After seven years, settlers were forgiven debts paid by others for their transportation to America. They were freed and given land and tools of their own.

Before 1964, if a student graduated and taught in a public school for five years, their college debt would be forgiven. The same could be done for doctors. Their reason for high prices is that they have a massive college debt.

For instance, State governors have offered land tax-free to Japanese auto industries if they would build factories in their state and agree to hire local citizens.

Present-day candidates for President mention our 18 trillion dollar debt and how corporations would likely return from offshore or from other countries with trillions of dollars to invest in the United States if we would give them a one-year holiday from paying taxes. If more workers took a sabbatical from work every seven years, there would be more jobs in the other six years. Of course, the Hebrews also had debts lasting beyond seven years, up to 49 years, such as mortgages. Close friends or relatives could also redeem the debt. This is somewhat related with each of us being reconciled, redeemed, or bought back, from a debt and being in sync with the Higher Realm.

E. Discussion:

TABLE 5. Third year of the 202nd Olympiad = Crucifixion in 31 AD
(15 days after 4-10 or 14 days after 4-11, 31 AD, in TABLE 2)
For 31 AD, April 10, go to: http://www.timeanddate.com/calendar/monthly.html?year=31&month=4&country=34

67 CE (Current Era) Nero enters all Olympic events and wins them all.

	47 CE		
66	46		
65	45	**Before Current Era**	**Astronomical Era**
64	44	BCE 776	-777
63 CE	43 CE	700	700
62	42	BCE 76	-77
61	41	76	77
60	40	**(No year 0)**	**(Year 0)**
59 CE	39 CE	28	28
58	38	Current Era CE 28	Current Era CE 28
57	37	3	3
56	36	4th year = CE 31	4th year = CE 31
55 CE	35 CE		
54	34		
53	33		
52	32		
51 CE	31 CE	Before July 202nd Olympiad = end of the year	
50	30	After July 202nd Olympiad = beginning of the year	
49	29		
48	28		

Note: The Astronomical Era replaces year 0 by changing it into −1.
Therefore, 1 BCE becomes −2.
The Before Current Era replaces year 0 by adding one year.
Therefore, 539 BCE + 2520 years = 1981 CE (+ 1 = 1982 CE).

Therefore, the third **year of the 202nd Olympiad was in 31 CE**
(not in 33 AD as it was calculated in Eusebius' *Chronicle* after 325 CE).

Also Google for the "third year of the 202nd Olympiad"

The conjunction of first new moon in 31 CE was on April 10th (NASA) and the Passover Crucifixion was likely 14 days after April 11th

The Babylonian and Islamic calendars also begin the lunar year after April 10, 31 CE.

Notes:

。 **The Messiah was nailed and died on year 30/31 A.D. and returned to life on the third day; that New Year's priest on duty was the 5th/6th shift! (The priestly order is Jeshebeab)**

At A.D. 28 on a Sabbath, he began reading in the synagogue to declare New Year's on 34 AD as the Jubilee (34 AD Stephen was killed as a martyr)!

E1. YHWH calendar "mathematic" exercises:

Notes for thought:

A.D. 69/70 is the Year of Sabbath, and on May 9, 69 A.D., the Second Temple of Av 9 was destroyed on the same day after 490 years of the First Temple!

The priest on duty in the temple calendar was Miyamin when the new year begin, the third class (3 / 6) of the year according to historical record.

From this information, we can calculate the priestly order with every 6 years cycle and find out:

NO1, which priest is on duty on the first day of the New Year in 2021?

(answer: same as above, the priest is Miyamin, the 3rd class of the 6 year priestly order!)

2021

Yahushua is safe to touch, John 20:26

Governing General over the month:
"The people bursting forth will return, my endowment/ dowry who is Elohim. - 1 Chron 27:2-3

Priest Order #

#6 1Ch 24:9 Miyamin [from the Right Hand]
#7 1Ch 24:10 Hakkotz [thorn]
#8 1Ch 24:10 Aviyah [YaHuVaH is (my) abba/ father]
#9 1Ch 24:11 Yehoshua [YaHuVaH is Salvation]

1Ch 27:2-3
Over the first course for the first month was Yashov`am ["the people/ nation will return/ restore"] the son of Zavdi'el ["God is my endowment/ a gift:—dowry"]: and in his course were twenty-four thousand. *He was* of the children of Peretz ["breach, bursting forth"], the chief of all the captains [rosh kol sar/ head of all the princes, governors, generals] of the host for the first month.

NO2. Which priest would be on duty on the first day of the New Year in 31 AD?

The answer is Jeshebeab , the 5/ 6 years prietly order. "Yahushua was crucified in the year 31AD and in this year, the Pharisees Lunar Calendar started one day later than Yahushua's Solar Calendar. Yahushua's 11th day was the weekly Sabbath and the Pharisees 10th day was this same weekly Sabbath. Yahushua rode into Jerusalem on His 10th day which was the 6th day of the week.From the above the next weekly Sabbath in the first month is the 11th day. We are told in the Dead Sea Scrolls that the Passover must be on the 3rd Day of the week. From Yahushua's 11th weekly Sabbath, this puts the Passover, the 14th Day, on the 3rd day of the week. and then the next day the 15th Yahushua was crucified by the Pharisees on their 14th day. Remember the Pharisees are one day behind, as they are keeping a Lunar calendar. Three nights and three days in the grave takes us to the 18th for the weekly Sabbath. Yahushua said He is Master of the Sabbath and He rose on the Sabbath day. " http://man-child.com/can-we-know-the-calendar-that-yahusha-kept/

NO3. If 68 A.D. is the year of rest, then the next year of rest for our generation will be in which year?

When is the Next Sabbatical and Jubilee?

Why study sabbaticals and jubilees? The above evidence shows they are an integral part of God's over-all master plan and may help us understand the time of the end. Is there any historical proof of a jubilee during the current era?

Dr. Benedict Zuchermann cites Matthew Paris in *Hist., Major, London*, 1686, p. 128, claiming that Richard Coeur de Lion (Richard the Lionhearted, a Commander of the Third Crusade) was coronated at the beginning of a jubilee year, on Sunday, September 3, 1189 AD. http://www.sacredcalendar.info/Jubilee.html

Benedict Zuchermann says that date was Elul 19 (*A Treatise on the Sabbatical Cycle and the Jubilee*, p. 55). This would be eleven days before the Jewish new year on Tishri 1. This is 21 days before the day of Atonement, Tishri 10, when the jubilee is announced.

17 jubilees after 1189 brings us to a jubilee in 2022 AD, which is 42 jubilees after Herod captured Jerusalem in 37 BC and 427 sabbaticals after Solomon's temple in 968 BC. However, this is based upon the rabbis (such as Zuchermann) and their date of Creation being in 3761 BC. An alternative date is four jubilees earlier, 3957 BC. The rabbinical society had removed 60 years between Abraham and his father, and their date for the temple is 832 BC instead of 968 BC (968 – 832 = 136 years) (136 + 60 = 196 years = 4 jubilees).

This cycle differs from the jubilees counted from 604 and 457 BC down to 34, 132 and 622 AD. This cycle continues to 1994-95 and 2043-44 AD.

G. A synth/ summary:

1. 1. Begins with Creation: As mentioned above, it is a common view that Daniel 9 mentions **490 years (49 x 10), and but these years align with the Jewish sabbatical cycles from 457 BC to 34 AD.** (Ezra's trip to Jerusalem **took place** in **457 BC**. Eze 4:6; Num 14:34) This cycle also extends back three jubilees, to 604 BC (Nebuchadnezzar's first year) and then on back another 952 years (136 sabbaticals) earlier, to 1409-1402 BC, two years before **Joshua's conquest in 1407 BC** to five years after 1407 BC. Miriam, Aaron and Moses died during these two years after 1409, which was 7 years before Joshua distributed the land west of the Jordan, when Caleb was age 85. Nebuchadnezzar became a wild animal in 569 BC, 49 years before the temple was founded in 520 BC, in the second year of Darius.

2 The Jews' date for year 6,000 is **2200 + 39 = 2239 AD (+1 = 2240**). Their date for the beginning is **3800 – 39 = 3761 BC. The correct date is 3957 BC**, 196 years (4 jubilees) earlier. Thus, the end of 6,000 years should be 2043 AD, 196 years (4 jubilees) earlier than 2239 AD. Therefore, we need to be cautious about setting dates

3. "All we can do is quote our sources. Others quote **Josephus' 50-year jubilees** down to **27-28 AD**, when Messiah quoted Isaiah 61:1-2 about the jubilee on **34AD**. **(Messiah died,** resurrected, ascended to heaven in the middles of the seven year; mid point of **year 27-34 A.D.)** This would merge with a jubilee in 132-133 AD (the bar Kokhba Revolt) and 622 AD (the beginning of the Mohammud Calendar). Hence, we tend to go with **3957, 3761, 968, 331, 135, 37 BC and 1189 AD** (Richard Lionheart crowned) **and 2022 AD**."

TABLE 11b. Creating Seven-year Patterns from Adam to Joshua

The book of Jasher, the Samaritan Text and Rabbinical produced jubilee pattern by having Shem born 98 years (2 jubilees) before Noah's flood and by dating Isaac's birth as 392 years (8 jubilees) after the flood (that is, 292 to Abram and 100 more to Isaac). This pattern omitted 60 years between Terah and Abram. In contrast to this, the Masoreh text (preserved in the King James version) presents the following pattern:

BC			
3957		0	Adam
	7 x 133	931	Adam's death
		1558	Shem's birth 1558 after Adam
		98	
		1656	Noah's flood after Adam
		3	
	7 x 237	1659	Sabbatical 1659 after Adam
		98	
	7 x 251	1757	Sabbatical and fall of Babel 1757 after Adam
		251	
		2008	Abram's birth
	7 x 257	2009	Sabbatical 2009 after Adam
		251	
		2259	Joseph's Birth
		30	
	7 x 327	2289	Sabbatical 2289 after Adam, Joseph age 30, before 7 yrs of plenty in Egypt
		7	Sabbatical before 7 yrs of famine in Egypt
	7 x 328	2296	
		7	Sabbatical at end of famine in Egypt
	7 x 329	2303	Jacob entered Egypt 5 years before 2303 (Gen 45:11)
		7	
		2510	Exodus
	7 x 359	2513	Sabbatical 2513 after Adam, 3 yrs after the exodus
		42	
	7 x 365	2555	Division of the land west of the Jordan

Caleb was 40 during the 2nd yr after the exodus and was 85 when Joshua cast lots to divide the land to the tribes west of the Jordan (Joshua 14:10). Therefore, the land was distributed 2555 yrs after Adam (7 x 365), in 1402 BC, 434 years before the temple in 968 BC.

F. Attached is a 6000 Jubilee Table: Starting with Adam's creation

The first Jubilee (50-7) years in the Garden of Eden (recorded in the Jubilee Book) = 43 years,
6000 years from 43 years (4000-43) = 3957BC,
Hence, 6000year is (2000AD+43 years) =2043AD.

TABLE 3. 6,000 Years of Jubilees

	Year#	Sabbath cycle	Jubilee cycle	Sabbath? Year	Jubilee? Year	Jubilee	Time Cycle	
-3957 BC	1			1	Jubilee	1	1	Date of creation = 3957

Conclusions and Reservations

Note that 6,000 years begins in 3957 BC, 43 Years after 4,000 BC, and it ends in 2,043 AD, 43 years after 2,000 AD.

Again, we need to be cautious about setting dates. Only two months ago, I thought the jubilee was two years after Solomon founded the temple. We just need to become in sync with the Higher Realm.

The above chronology is based upon various numbers found in the Bible, and assumes the Jews are right about a 6,000-year era prior to a 1,000-year era, which is assumed to be the 1,000-year period in Revelation 20. How can they be trusted in regards to the 6,000 years if they also are responsible for removing 196 years, which allegedly places the end in 2239 AD?

Nothing has been said about the Islamic and Zoroaster calendars with 30-day months and 360-day years similar to Noah's flood calendar with 150 days during the first five months (Gen 7:11 – 8:3,4), or similar to Daniel 12 and Revelation 12 & 13, where 3½ years have 30-day months (30 x 12 = 360 days per year).

Egypt also had 30-day months, but they added 5 days at the end of each year and a total of 30 extra days at the end of six years (like the Zoroaster calendar). These have exactly 365 days per year without adding a day every four years.

Likewise, there are 85 30-year cycles between 3957 (creation) and 1407 BC, when Joshua crossed the Jordan (after 1260 years plus 1290 years = 2550 years), and he divided the land 365 sabbaticals after 3957 BC (creation), in 1402 BC (3957 – 1402 = 2555 years). 2555 years = 365 sabbaticals.
